**PREAMBLE**

1. **WHEREAS** the Government of Uganda has put in place a plan in the National Oil and Gas Policy for Uganda of 2008 to develop its petroleum resources, the key aspects of which include development of an oil refinery, construction of a crude oil export pipeline and producing oil for power generation;
2. **WHEREAS** the Government strategy in the National Oil and Gas Policy for Uganda, 2008 is to use oil and gas resources to contribute to the country's energy mix by promoting the use of crude oil, natural gas and Heavy Fuel Oil (HFO) from the oil refinery in the generation of electricity, with a view of ensuring adequate energy supply;
3. **AND WHEREAS** Government has a target to produce first oil in 2018 but due to a number of factors, this target will not be achieved and the revised Petroleum Production Plan projects petroleum production to commence in 2020;
4. **NOTING** that as a result of Government projections, a number of Independent Power Producers have been either permitted to study or licensed under the Electricity Act, 1999 to develop power plants to utilise indigenous petroleum resources;

**POLICY DIRECTION**

5. **NOW THEREFORE**, the following Policy Direction is given to the Electricity Regulatory Authority ("Authority") to observe and implement-
  - (a) to permit companies involved in oil exploration, development and production to undertake the necessary studies with a view of utilizing the indigenous petroleum resources to generate power for their own requirements;
  - (b) to advise companies that have been licensed or permitted under the Electricity Act, 1999 to develop power plants to utilise the indigenous petroleum resources as their feed fuel, that the indigenous petroleum resources will become available after the year 2020;
  - (c) to take note of the revised Petroleum Production Plan in issuing permits and licences to companies proposing to utilise indigenous petroleum resources for power generation.
